

INTERPRETATION OF THE LOGO

50th

A golden jubilee is the 50th anniversary of an important or special event the university is going through

The Zero is represented as an unconnected circle that hosts lots of diversity in it - *“Oasis of peace beacon of hope”*

The circle represents the arabic word “Aljamea” which means: ‘the one that gathers’ and from the Latin word: universitas, which means: 'a whole'- *“Enter to Learn Leave to Serve”*.

No 5 represents: Lasallian congregation, BU administration, BU Students BU Teachers, BU staff

The Color Gold

In the Bible the color gold represents lots of things, but I used it here to represent:

Glory; (God & Church)

Deity of a foundation; (Lasallians)

Divinity of a mission; (Indivisa Manent).

The three broken wings

(united to fly again Learn to live so free)

-The blue and yellow (taken from the original logo) - Represent students from all faiths, rich and poor, females and males, young and old ...

-The Purple represents the female student that we all back her up to learn and to fly again freely

INDIVISA MANENT
lasallians

INDIVISA MANENT - Lasallians

Is the Latin phrase found in the family crest of St. John Baptist de La Salle which is best translated into English as **“Forever United.”**

It represents fortitude courage and the spirit of association that is one of the unique identifying features of the Lasallian Family that we are all fond off.

The years 1973-2021

Represent a Golden Jubilee serving years, ongoing mission and vision
