

Information Day : Al Maqdisi Programme

16th Call for project proposals in scientific research - 2021 -

26 April 2021, 11:00 am

The Al Maqdisi programme is the French-Palestinian Hubert Curien partnership. It is coordinated by the French Ministry for Europe and Foreign Affairs (MEAE), the French Ministry for Higher Education, Research and Innovation (MESRI), and by the Consulate General of France in Jerusalem. It aims at developing and strengthening scientific and academic exchanges between French and Palestinian higher education institutions and research organisations. To this purpose, it supports the mobility of French and Palestinian researchers and seeks to foster new structuring collaborations, closer ties with the private sector, as well as to encourage the participation of young researchers. The programme is open to all scientific fields.

Webinar: Via Microsoft teams platform: <https://bit.ly/3gkUh6D>
